

I would like to submit my name for membership to the National Emergency Medical Services Advisory Council. I have been active in EMS since 1974. I was a pre-hospital provider at the EMT level for 27 years and now am the Director of Operations for the Orwigsburg Ambulance Inc. I am currently a PA state certified EMT Instructor, PA Dept. of Health Basic Vehicle Rescue Instructor, Certified Designated Infection Control Officer for 2 organizations, as well as many other fire and EMS related credentials.

I was a member of the Eastern PA EMS Council Board of Directors serving a term of 6 years. Am currently on the BLS committee for the Eastern Regional Council. I served 3 years on the Board of Directors of Advanced Life Support Systems, an ALS service in Schuylkill County, PA.

I would be representing a smaller, non-profit community ambulance service as well as my local volunteer rescue squad. I believe my involvement in fire and EMS would be of great value to a national committee.

Thank you for your consideration of my request.
